**To:** Ken Murphy, City Administrator  
**From:** Shannon Davies, Director of Parks & Recreation  
**Date:** January 25, 2021  
**Subject:** Pool Management Agreement with Midwest Pool Management

A “Request for Proposals” was advertised this past July for Pool Management Services for the Grain Valley Aquatic Center for the next 3 swimming seasons (2021, 2022, and 2023). We received one proposal from Midwest Pool Management (MPM), which is attached to this resolution for your review. The 3-year cost to enter into an agreement with MPM is listed below:

<b>Contractor</b>	<b>Expenses</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>
Midwest Pool Management	Salaries	\$62,425.00	\$66,875.00	\$70,945.00
	Management/Maintenance	\$50,825.00	\$52,560.00	\$54,425.00
	<b>Total Annual Fee</b>	<b>\$113,250.00</b>	<b>\$119,435.00</b>	<b>\$125,370.00</b>

Some important things to note:

1. The total management fee is a “Not to Exceed” amount. We are not charged labor, supplies, etc., when the pool is closed or when it opens late/closes early due to inclement weather or low attendance.
2. Last season, we received a \$14,278.00 reimbursement at the end of the season.
3. This contract includes staff wages for facility lifeguards, head guards and facility managers in addition to all pool chemical costs, routine maintenance, lifeguard training and equipment/apparel, a third-party audit, insurance and much more.
4. The increase annually is in large part due to the annual increase in Minimum Wage that will continue through 2023.
5. The City will continue to oversee pool concession operations, aquatic programs, classes and special event as well as private pool rentals.

MPM has provided pool management services for the City of Grain Valley since 2009. We feel that MPM exceeds the qualifications for the successful operation of the Grain Valley Aquatic Center and has a track record of providing quality, aquatic services to our citizens. Below are some key points to consider:

1. MPM has been managing municipal aquatic facilities since 1967.

2. MPM currently has pool management contracts with bigger municipal aquatic facilities in Kansas City, Independence, Belton and Warrensburg as well as small municipal aquatic facilities in Odessa and Cameron.
3. MPM is local with their corporate office in St. Louis and a satellite office in Independence, which allows for a quick response time to our aquatic facility when the need arises.
4. Several of MPM's managers used to work for park and recreation agencies. They understand the challenges we face when working with publicly funded facilities and the obligation to be fiscally responsible with municipal tax dollars.
5. MPM always recruits employees from within the City first, advertising local and setting-up recruitment booths at the local high school cafeteria.
6. With MPM operating so many aquatic facilities close by, they are able to pull lifeguards from other facilities and fill-in here if needed. This helps the City by avoiding lifeguard fatigue due to long shifts and overtime wages but also allows us to keep the facility open and fully staffed.
7. An impromptu, third-party safety audit is conducted during the season with results provided to both MPM and City staff.
8. Each month, a minimum of 4 hours of documented, in-service training is conducted.
9. Westport Pools, a sister company of MPM will be responsible for the winterizing and un-winterizing of the facility, daily maintenance, and repair issues that may arise. Westport Pools will annually make thorough system evaluations and recommendations for replacement or repair for the current pool season as well as in the future. These costs are included in the contract.
10. When it comes time to replace or purchase new equipment or pool related amenities, we are able to purchase these items at the discounted contractor's pricing through MPM.
11. MPM's focus is in the pool industry so they make sure their staff are always up to date on new legislation, advancements in technology, and updated training.

In summary, we feel that Midwest Pool Management will ultimately provide the highest level of service, professionalism and safety for the citizens of Grain Valley and their track record with us over the past 12 seasons has shown just that. MPM states that their; "primary objective is to develop a partnership with the City of Grain Valley to best serve the residents of the community by creating a safe and enjoyable environment that will earn the repeat business of our community's patrons." It is our facility and we will not lose any control or authority. In fact, contracting with MPM will allow us to devote our resources to more administrative and planning functions. They know that their staff will be perceived as our staff and as such, they should represent the municipality with the highest professional standards.

Thank you for your time and consideration.

# MIDWEST POOL MANAGEMENT

August 8, 2020

Mr. Shannon Davies  
Director of Parks and Recreation  
City of Grain Valley  
711 Main Street  
Grain Valley, MO 64029

Dear Shannon,

Midwest Pool Management is pleased to submit our proposal for pool management services for the Grain Valley Aquatic Center.

Over the past few years, we have established a strong core of returning staff, the majority of whom are residents of your community. We are sensitive to budget constraints, and cost recovery goals, but know that managing risk is by far the paramount goal.

Our knowledge and experience with the City of Grain Valley translates into the development of a lean, efficient method to staff your facility without compromising the safety of the patrons. We are able to accomplish this without putting too few lifeguards at stations or skimping or skipping monthly in-service training or allowing inadequate time to address the maintenance and cleaning requirements of facility.

As your partner; we are cost effective in the operation of your aquatic facility without compromising the safety of your residents by understaffing the facility. Our ability to deliver on this promise is evidenced year-after-year when actual salaries worked are less than the Maximum Salary Budget, saving the City thousands of dollars each year. We will continue to look for opportunities to create efficiencies in the facility operation, thereby reducing the City's cost to operate and by increasing opportunities for revenue enhancement.

The attached submittal further outlines the depth of our organization, our experience and our philosophy of operation.

We value our relationship with the City of Grain Valley and would like to continue that partnership long into the future.

Please don't hesitate to contact us should you have any questions.

Sincerely,

Chad Beasley

## QUALIFICATIONS OF AQUATIC STAFF

---

### **Lifeguard** (will hire 10-12 for 2021 season)

The first and most important responsibility for all lifeguards is to promote safety and perform when a rescue is necessary. Lifeguards must be able to react to life threatening situations as trained by Starfish Aquatics in the Lifeguard Training course (including CPR and First Aid). All lifeguards attend four hours of in-service training per month during their employment.

Lifeguards must:

- Complete requirements for the Starfish Aquatics Training Program.
- Recognize and reach a guest in distress within 30 seconds.
- Recognize areas of potential danger.
- Keep the pool(s) clean.
- Keep the bathrooms and bathhouse clean.
- Keep the pool area/perimeter picked up and clean.
- Communicate with staff members and guests.
- Be professional.
- Enforce the pool rules consistently.

### **Manager** (will hire 1 facility manager and 1 assistant managers for 2021 season)

Managers are responsible for all of the above requirements and duties as well as assigning and overseeing other pool staff. As the person in charge of their facilities operation, it is very important that a manager sets a good example for the staff and patrons. People look to the Manager for answers and direction. The manager on-duty may be required to perform various other tasks depending on the facility they are assigned to.

A Manager may have all of the following extra duties:

- Make bank deposits.

- Complete and submit paperwork.
- Pick up supplies.
- Order chemicals (such as chlorine, DE, etc.)
- Conduct in-service training.
- Fill out daily checklists.
- Account for all pool keys.

Managers will communicate closely with the Field Supervisor and/or District Manager. A good Manager is vital to a successful season.

**Field Supervisors** (4 - 6 in the Kansas City district)

Supervisors are personnel who have been specially trained to handle in-the-field problems, including mechanical, chemical, and staff situations. Supervisors also perform frequent unannounced inspections of our facilities to make sure that company standards for safety and cleanliness are always maintained. Supervisors report directly to the District Manager and work very closely with them to make sure our pools run smoothly.

- Referrals – We have instituted a recruitment bonus system for staff members who successfully recruit their friends.
- Job Fairs- We participate in school related job fairs and do other on-site recruitment at targeted schools
- Web Site- Our web site has an online job application form
- Municipal Personnel Departments- We provide client municipalities with job application information and applications.
- Website Links- Links from client websites to our website are pursued.

Special emphasis will be placed on use of the above recruiting methods in targeted areas to enhance minority recruitment. Schools and recreation centers in identified areas will be used for recruitment purposes.

Right: MPM employee participating in a CSI meeting at Adventure Oasis after park closure.

## STAFF RETENTION

---

Retaining seasonal staff presents a challenge to all employers. In the case of aquatic management, the first concern is retaining the staff for the duration of the season. This requires an employment philosophy designed to help the employee succeed.

Midwest Pool Management fully understands that being employed as a lifeguard carries with it the serious responsibility for the safety of those using aquatic facilities. Furthermore, we understand that for many of our employees this may be their first job. Therefore, it is our philosophy to dedicate the resources of our company to help our employees succeed and ensure public safety.

To that end we not only provide certification in a nationally recognized lifeguard training program but we provide a mentoring program throughout the employment where first-time lifeguards can learn from experienced guards. It's not just new guards working with older guards, but the way we "counsel" the new guards to help bring them along in their work experience. If a guard has difficulty at a pool, we will counsel the guard in order to provide a greater understanding of the expectations. This dedication of resources has resulted in our guard staff developing an understanding of the big picture and the development of an attitude to correct less than desirable performance.

Due to the large number of clients that we have and the unique nature of these clients we analyze the strengths and weaknesses of each member of our staff and place them in an environment appropriate for the individual guard. This individual attention is important to us to allow our staff to succeed.

Additionally, we provide bonuses to employees who complete the entire season and receive a positive performance evaluation.

The next step of course would be to retain high performers for the next season. Again, with over 1,800 seasonal staff, we have developed unique and successful methods. Some of these methods include:

- Early and constant contact by mail, email and social networking websites
- Completion bonuses
- Recruiting bonuses
- Graduated pay scale based upon years of service
- Potential of advancement: example- lifeguard to head guard; from head guard to assistant manager; from assistant manager to manager
- Offer engagement opportunities through programs like CSI:KC, an employee led task force to help employees participate in the decision making process.

## PROPOSAL CLARIFICATIONS & POTENTIAL COST SAVINGS

### 1. **Comprehensive Automobile Liability Insurance**

Regarding item 7.4, Midwest Pool Management provides the following Automobile Liability Insurance:

A. The Contractor shall maintain Comprehensive Automobile Liability insurance coverage in amounts not less than the limits set forth below:

\$3,000,000.00 each accident, combined single limit, bodily injury and property damage.

The above limits may be provided by one or multiple policies.

### 2. **Changes to Federal or State Guidelines**

Recently there have been changes made at the Federal or State level that may have an impact to the costs of managing your facility. A past example of this is the annual Missouri State Minimum Wage and the Federal Minimum Wage increase that took effect in January of 2017. This has led to an approximate 9% increase to minimum wage each year through 2023. We have also seen a change at the state level in regards to school start date- Governor Parsons signed a bill pushing the public school start dates to 14 days before Labor Day, which has created a longer swim season during the week that we have seen for many years. We are therefore seeing a larger increase in staffing costs. As we have in the past, we will continue to monitor staffing levels to create an efficient and safe swimming environment while being good stewards of the City's funds. We would like to request the following language to be added to the contract in the event of additional changes to guidelines during the period of this contract.

*"Upon any change in Federal or State guidelines, which govern Manager's operation and/or employees, Manager may present a new contract amount, in writing to the City. If the City does not reject the new amount in writing within the time listed below, the increase will be added to the existing payment schedule and become a part of this contract. If Manager notifies the City of a change between September 1 and April 1, the City will have thirty (30) days to reject the amount. If the Manager notifies the City of a change between April 1 and September 1, the City will have ten (10) days to reject the new amount."*

### 3. Midwest Pool Management would like to request the following language in red to be added to the indemnification clause found on page 13 Section 8:

*"Contractor shall, at its sole cost and expense, indemnify, hold harmless and protect the City, including its officers and employees, from and against any and all claims, damages, costs or expenses (including court costs and reasonable attorney's fees) for any claim arising out of Contractor's negligent acts under this Agreement; provided, however, that this hold harmless and indemnification shall not apply where such claims, actions, damage, liability, or expenses result from any omission, fault, negligence, or misconduct on the part of the City, its agents, servants, employees, contractors, or licensees. Notwithstanding the foregoing Contractor's indemnity obligations are limited solely to the extent directly caused by Midwest Pool Management's fault or negligence and any claim arising from any sickness, illness, or death connected to or arising from any infectious or contagious disease including but not limited to diseases caused by bacteria, fungi, protozoa, viruses, or any combination of the foregoing unless caused by the fault or negligence of Midwest Pool Management, is specifically excluded from this indemnity and defense obligation."*

#### **4. Clarification regarding aquatic programming and special events**

The RFP offers some inconsistency regarding the inclusion of aquatic program activities not offered during open swim time. In Section 2, it directs the bidder to include those hours in the not-to-exceed salary budget but in Section 5.4 it shows that those hours will be billed supplemental. There is no direction as to how many hours to include for these programmatic activities. For clarification, MPM has only included open swim hours in this proposal, all other activities would be billed in addition to the contract.

#### **5. Removal of Performance Bond requirement**

We recommend the City eliminate the Performance Bond included with this RFP: Midwest Pool Management is an established corporation with a strong history of completing work in satisfactory manner. In over 45 years of business, MPM has never defaulted on a contract or been removed from a contract early for performance related issues. Eliminating this from the agreement would save the City approximately \$2,000 annually.

**FIVE-YEAR DISTRICT MANAGEMENT PLAN**

**The information and details outlined in the following pages represent the anticipated strategies, activities and improvements during the initial five-year duration of a Community Improvement District in the City of Grain Valley, Missouri. It is an integral and composite part of the petition to establish the Grain Valley Mercado Community Improvement District.**

---

## **Introduction**

The Grain Valley Mercado Community Improvement District (the “**District**”) is created pursuant to Section 67.1401 through 67.1571 of the Revised Statutes of Missouri (the “**CID Act**”). Section 67.1421, RSMo, requires that the petition for the creation of the District be accompanied by a five-year plan which includes a description of the purposes of the proposed district, the improvements it will make and an estimate of the costs of such improvements. This Five-Year District Management Plan (the “**Plan**”) is designed to comply with this statutory requirement, and is appended to the Petition for Formation of the District.

### **Section 1**

#### **Why Create a Community Improvement District?**

The District is proposed to provide funding for the Improvements, Services, Formation Costs, and Operating/Administrative Costs (as those terms are defined below). The District will enter into an agreement with Timothy D. Harris or an entity he owns and controls (“**Developer**”) whereby Developer will agree to advance such costs, as necessary, and the District will use District Sales Tax (defined below) revenues collected over time to repay Developer with interest. Any obligation of the District will not be a financial obligation of the City of Grain Valley, Missouri.

### **Section 2**

#### **What is a Community Improvement District?**

A community improvement district (“CID”) is an entity that is separate from the City of Grain Valley (the “City”) and is formed by the adoption of an ordinance by the City’s Board of Aldermen following a public hearing before the Board of Aldermen regarding formation of the District. A CID may take the form of a political subdivision of the State of Missouri, or a nonprofit corporation that is formed and operated under Missouri corporation laws. CIDs are empowered to provide a variety of services and to finance a number of different types of improvements. CIDs derive their revenue from taxes and assessments levied within the boundaries of the CID. Such revenues are then used for the benefit of the properties within the CID. A CID is operated and managed by a board of directors, whose members may be appointed or elected. Board members serve for a designated period of time, and the Board positions are again elected or appointed at the expiration of each term.

### **Section 3**

#### **Management Plan Summary**

This Plan is proposed to improve and convey special benefits to properties located within the boundaries of the District by providing assistance in the construction of certain Improvements and provision of certain Services. The District in this case will take the form of a separate political subdivision of the State of Missouri, which will be governed by a Board of Directors that will consist of five members.

#### *District Formation:*

CID formation requires submission of signed petitions from a group of property owners:

- collectively owning more than fifty percent (50%) by assessed value of the real property within the District, and
- representing more than fifty percent (50%) per capita of all owners of real property within the District.

The Petition to which this Plan is attached meets these signature requirements.

*Location:*

The District is located west of S. Buckner Tarsney Road and abuts the north side of NE McQuerry Road in the City. The District will cover approximately 12 acres of land, as represented on the map included as **Exhibit 1** of this Plan.

*Assessed Value of District:*

The total assessed value of the properties within the District on the date of the Petition is \$131,849.

*Improvements:*

The District will assist in the funding of the construction of certain improvements (the “**Improvements**”), which are more particularly described in **Exhibit 2** of this Plan. The particular items included within the Improvements may be increased or amended from time to time and the costs of the Improvements to be financed by the District shall include all associated design, architecture, engineering, financing, private interest carry, legal and administrative costs of same.

*District Services:*

The District may also fund certain services within its boundaries for the benefit of the owner(s) of and tenants within the District (the “**Services**”), which are more particularly described in **Exhibit 2** of this Plan.

*Formation Costs:*

All costs, including attorneys' fees, associated with formation of the District, including, but not limited to, the preparation of the CID Petition, the negotiation and drafting of any agreements entered into upon formation of the District in furtherance of the District's purposes, and the initial implementation of the District (“**Formation Costs**”) may be reimbursed to the advancing party, or paid directly, from funds generated by the District.

*Operating/Administrative Costs:*

All costs of operating and administering the District, including, but not limited to, the costs of legal counsel, insurance premium payments, accounting services, and other outside consultants (“**Operating/Administrative Costs**”), may be reimbursed to the advancing party, or paid directly, from funds generated by the District.

*Method of Financing:*

While the District is permitted to issue notes or incur other obligations, as defined in Section 67.1401.2(10) of the Revised Statutes of Missouri, to pay for the Improvements, Services, and Formation Costs, it is anticipated that the District will enter into an agreement with Developer whereby Developer will agree to advance the costs of the Improvements, Services, Formation Costs, and Operating/Administrative Costs, as necessary, and the District will use District Sales Tax revenues collected over time to repay Developer with interest. The District Sales Tax revenues will come from the District's imposition of a sales tax on all retail sales made in the District which are subject to taxation pursuant to Sections 144.010 to 144.525 of the Revised Statutes of Missouri, except the sale of motor vehicles, trailers, boats or outboard motors and sales to public utilities, all as allowed by Sections 67.1461 and 67.1545 of the Revised Statutes of Missouri (the "**District Sales Tax**").

*Cost:*

The total estimated cost of the Improvements, Services, and Formation Costs, as well as the estimated annual cost of costs of the Operating/Administrative Costs, are set forth in **Exhibit 2**.

*City Services:*

The CID Act mandates that existing City services will continue to be provided within a CID at the same level as before the District was created (unless services are decreased throughout the City) and that District services shall be in addition to existing City services. The District anticipates that City services will continue to be provided within the District at the same level as before the District was created, and the District will not cause the level of City services within the District to diminish.

*Duration:*

The proposed maximum length of time for the existence of the District is the earlier of: (i) reimbursement of all CID reimbursable costs with interest as set forth in an intergovernmental cooperative agreement to be entered into by and between the District and the City; or (ii) thirty (30) years from the date of the ordinance approving the Petition. The District may be terminated prior to the stated expiration date in accordance with the provisions of the CID Act.

*Governance:*

The District's budgets and policies may be refined annually by the District's Board of Directors. Budgets and reports will be submitted annually to the City for review and comment in accordance with the CID Act. The District will operate at all times in accordance with the District Rules and Regulations (Section 6) and the Bylaws of the District.

## **Section 4**

### **District Boundaries**

Approximately 12 acres has been identified for the District. The map of the District is attached as **Exhibit 1** to the Plan.

## **Section 5**

### **Facilities and Services to Be Provided**

As summarized above, during the first five years, the District will use District Sales Tax revenues to pay for, or repay Developer, with in interest, for Developer's advancement of the costs to

pay for, construction of the Improvements, provision of the Services, Formation Costs, and Operating/Administrative Costs.

## **Section 6**

### **District Rules and Regulations**

1. The District shall operate at all times in accordance with Bylaws that shall be adopted by the Board of Directors. The initial Bylaws to be adopted by the Board of Directors shall be in substantially the same form as the Bylaws attached to this Plan as **Exhibit 3**. At all times, the District shall conduct its proceedings in accordance with Robert's Rules of Order, except as otherwise provided in the Bylaws.
2. The District will meet on an annual or more frequent basis.
3. The District will annually prepare a budget, and an annual report describing the major activities of the District during the preceding year and upcoming year. The Budget and Report shall be submitted to the City Finance Director or City Administrator for review and comment no earlier than 180 days and no later than 90 days prior to the first day of each fiscal year.

**5. **4. Waiver of Notice.** Any notice provided or required to be given to the directors may be waived in writing by any of them whether before or after the time stated therein. **5. Quorum.** The presence of a majority of the Board shall be requisite for and shall constitute a quorum for the transaction of business at all meetings. **10. At the first and each subsequent annual meeting of the Board, the Board shall appoint officers to serve until the next annual meeting of the Board and until their successors are duly appointed and qualified.

An officer shall be deemed qualified when such officer enters upon the duties of the office to which such officer has been appointed and furnishes any bond required by the Board or these Bylaws; but the Board may also require of such person a written acceptance and promise faithfully to discharge the duties of such office.

his or her own salary or compensation. Each officer may be reimbursed for such officer's actual expenses if they are reasonable and incurred in connection with the purposes and activities of the District.

**5. Vacancies.** Vacancies caused by the death, resignation, incapacity, removal or disqualification of an officer of the District shall be filled by the Board at any annual or other regular meeting or at any special meeting called for that purpose, and such person or persons so elected to fill any such vacancy shall serve at the pleasure of the Board until the next annual meeting of the Board, and until such officer's successor is duly elected and qualified.

The Chairman shall have such other duties, powers and authority as may be prescribed elsewhere in these Bylaws or by the Board.

**7. The Secretary.** The Secretary shall attend the meetings of the Board and shall record or cause to be recorded all votes taken and the minutes of all proceedings in the minute book of the District to be kept for that purpose. The Secretary shall perform like duties for any committee established pursuant to these Bylaws when requested by such committee to do so. The Secretary shall be the custodian of all the books, papers and records of the District and shall, at such reasonable times as may be requested, permit an inspection of such books, papers and records by any director of the District. The Secretary shall upon reasonable demand furnish a full, true and correct copy of any book, paper or record in his or her possession. The Secretary shall be the administrative and clerical officer of the District under the supervision of the Chairman and the Board.

The Secretary shall keep in safe custody the seal of the District and when authorized to do so shall affix the same to any instrument requiring the seal, and when so affixed, the Secretary shall attest the same by his or her signature.

The Secretary shall have the principal responsibility to give or cause to be given notice of the meetings of the Board, but this shall not lessen the authority of others to give such notice as provided in these Bylaws.

The Secretary shall have the general duties, powers and responsibilities of a secretary of a district and shall have such other or further duties or authority as may be prescribed elsewhere in these Bylaws or from time to time by the Board.

**8. Treasurer.** The Treasurer shall have supervision and custody of all moneys, funds and credits of the District and shall cause to be kept full and accurate accounts of the receipts and disbursements of the District in books belonging to it. The Treasurer shall disburse or supervise the disbursement of funds of the District in accordance with the authority granted by the Board, taking proper vouchers therefor. The Treasurer shall be relieved of all responsibility for any moneys or other valuable property or the disbursement thereof committed by the Board to the custody of any other person or district, or the supervision of which is delegated by the Board to any other officer, agent or employee.

The Treasurer shall render to the Chairman or the Board, whenever requested by them, an account of all transactions as Treasurer and of those under the Treasurer's jurisdiction and the financial condition of the District.

The Treasurer shall have the general duties, powers and responsibilities of a treasurer of a district, shall be the chief financial and accounting officer of the District and shall have and perform such other duties, responsibilities and authorities as may be prescribed from time to time by the Board.

**9. The Executive Director.** The Executive Director shall execute documents, take any action and perform any further duties as may be prescribed from time to time by the Board.

**10. Other Agents.** The Board from time to time may also appoint such other agents for the District as it shall deem necessary or advisable, each of whom shall serve at the pleasure of the Board or for such period as the Board may specify, and shall exercise such powers, have such titles and perform such duties as shall be determined from time to time by the Board or by an officer empowered by the Board to make such determinations.

**11. Duties of Officers May Be Delegated.** If any officer of the District be absent or unable to act, or for any other reason that the Board may deem sufficient, the Board may delegate, for the time being, some or all of the functions, duties, powers and responsibilities of any officer to any other officer, or to any other agent or employee of the District or other responsible person, provided a majority of the whole Board concurs therein.

The indemnification provided by this Bylaw provision shall not be exclusive of any other rights to which those indemnified may be entitled under any other bylaw provision or under any agreement, vote of disinterested directors or otherwise, and shall not limit in any way any right which the District may have to make different or further indemnifications with respect to the same or different persons or classes of persons.

No person shall be liable to the District for any loss, damage, liability or expense suffered by it on account of any action taken or omitted to be taken by such person as a director or officer of the District if such person (i) exercised the same degree of care and skill as a prudent person would have exercised under the circumstances in the conduct of his or her own affairs, or (ii) took or omitted to take such action in reliance upon advice of counsel for the District, or upon statements made or information furnished by directors, officers, employees or agents of the District which such person had no reasonable grounds to disbelieve.

**TO:** Mayor & Board of Aldermen

**FROM:** Ken Murphy, City Administrator

**DATE:** January 25, 2021

**RE:** Petition for the Establishment of the Grain Valley Mercado Community Improvement District

On December 9, 2020, pursuant to the Missouri Community Improvement District Act (§§ 67.1401 to 67.1571, RSMo) (the “CID Act”), a Petition to Establish the Grain Valley Mercado Community Improvement District, signed by (1) property owner(s) collectively owning more than fifty percent of the assessed property value of real property and (2) more than fifty percent of the per capita owners of all real estate within the boundaries of the proposed Grain Valley Mercado Community Improvement District (the “District”) was filed with the City Clerk of the City of Grain Valley, Missouri (the “City”). The City Clerk, with the assistance of the City’s special economic development counsel, has reviewed the petition, and has determined that the petition substantially complies with the CID Act. A public hearing for consideration of the establishment of the District was set and all proper notice required by law was provided. In accordance with the CID Act, the Board of Aldermen must now hold a public hearing to hear all reasonable protests, objections and endorsements regarding the District and consider the adoption of an ordinance approving the petition and establishing the District.

### **Background**

STAR Acquisitions, Inc. (the “Applicant”) approached the City of Grain Valley, Missouri (the “City”) looking for incentives for a redevelopment project. The City and Applicant worked out a comprehensive incentive program for implementation of a proposed community improvement district (“CID”), transportation development district (“TDD”), and a sales tax reimbursement agreement for development of property for a proposed development which is expected to provide approximately 85,000 square feet of fast food, retail, office, and industrial users. The Development Project is generally located at the northwest corner of the I-70/Buckner Tarsney Road interchange, south of NW Woodbury Drive and north of NW Jefferson Street (the “Development Area”). It is anticipated that the Applicant will begin construction of the Development Project by December 31, 2021. Completion of the project is anticipated to be December 31, 2024, but the parties hereto acknowledge and agree that the actual timing for completion of the Development Project will depend on tenant/user demand.

The Applicant understands that approval of the CID Petition, TDD Petition, and Sales Tax Reimbursement Agreement are subject to the sole discretion of the Board of Aldermen. In the coming weeks, the City and Applicant will negotiate a comprehensive development agreement which will include detailed provision relating to the implementation of the CID, TDD, and Sales Tax Reimbursement, if approved.

The TDD Petition has been submitted and is currently being evaluated by the Jackson County Circuit Court. The hearing date for the TDD Petition is expected no later than March 2021.

### **Procedural Steps**

The proceedings associated with the consideration of the Petition are generally as follows:

- Public hearing is opened.
- Presentation on basic community improvement district law by the City’s special counsel for economic development.
- Presentation of the CID Petition by the Developer.
- City Staff comments on the CID Petition by the City’s special counsel for economic development issues.
- Questions and discussion of CID Petition by Mayor and Board
- Public comments, including but not limited to all reasonable protests, objections, and endorsements.
- Public hearing is closed.
- Motion regarding the Petitioner’s request to establish the District and first reading of related ordinance.

### **Summary of Contents of CID Petition**

- **Petitioners:** Signed by more than 50% of the owners of property located within the proposed district measured on a “per-capita” and an assessed value basis. The Petition was signed by 3 of 3 property owners (or 100% of the owners per capita). The property owners which signed the petition collectively own approximately 100% of the assessed value of real property within the boundaries.
- **Name of District:** Grain Valley Mercado Community Improvement District.
- **Map and Legal Description:** A legal description and map of the District were attached to the Petition as required by statute.
- **District Type:** The District will be established as a political subdivision of the State of Missouri.
- **District Governance:**
  - The District will be governed by a Board of Directors having 5 members.
  - The members of the Board of Directors are named in the Petition and will have initial terms of either 4 or 2 years as required by the CID Act.
  - Successor Directors will be appointed by the Mayor with the consent of the Board of Aldermen from a slate of nominees supplied by the District’s Board.
- **Funding Mechanism:**

- The Developer is requesting the authority to impose a 1% CID sales tax on all eligible retail sales within the District, as allowed under the CID Act and suggested by City Staff.
- **Term of Existence:** The Petition requests that the CID remain in existence for the earlier of: (i) reimbursement of all CID reimbursable costs with interest as set forth in an intergovernmental cooperative agreement to be entered into by and between the District and the City; or (ii) thirty (30) years from the date of the ordinance approving the Petition.
- **Blight Determination:** That the area within the District boundaries is a Blighted Area pursuant to the determination of blight made by the Board of Aldermen in Ordinance No. 2107, adopted September 27, 2010, in conjunction with the approval of the Grain Valley Marketplace Tax Increment Financing Redevelopment Plan.
- **Five Year Plan:**
  - The CID Act requires a CID petition to include a five-year plan describing the purposes of a district, the services it will provide, the improvements it will make and the estimated costs of the services and improvements to be incurred.
  - District Purposes:
    - Provide for administration and operation of the District
    - Provide for CID Improvements
      - Site grading
      - Public stormwater improvements
      - Construction of streets/drives
      - Site work/infrastructure improvements
      - All associated design, architecture, and engineering for the above listed improvements
    - Provide for CID Services
      - Legal, accounting, and insurance expenses - annually
    - Impose a district sales tax – 1%
  - Estimated Costs of CID Improvements and related soft costs and financing in the first 5 years: \$436,385.
  - Estimated Costs of CID Services in the first 5 years: \$0 (see footnote 1 of Petition, Exhibit 2.)
  - Estimated Costs of District Operating/Administration in the first 5 years: \$27,500.
  - Estimated Administration Fee to the City in the first 5 years: \$833.86
  - Total Estimated Costs in first 5 years \$529,271.
  - Total Estimated District Revenue in the first 5 years: \$83,386.

### **Planned Improvements**

Currently, the District Area is owned by one property owner. The Project Developer/Petitioners are requesting formation of the District to assist in the funding of public improvements, which consist of site grading, public stormwater improvements, construction of streets/drives, site work/infrastructure improvements, and CID eligible costs/improvements. CID will pay for CID eligible development costs that are not already being offset by TDD revenues and Sales Tax Reimbursement.

The public improvements will include necessary traffic improvements to the interchange required by MoDOT, including additional left turn lanes and traffic signal retrofits. These improvements were an unanticipated development cost since the City and MoDOT had just improved the interchange less than 10 years prior, which design was supposed to provide at least 20 years of traffic capacity in this area. The cost of the MoDOT improvements is estimated to be approximately \$400,000, plus design and other soft costs. In addition, public improvements to the Development Area include, without limitation, transportation, and storm sewer improvements, all of which are anticipated to be reimbursed by CID and TDD revenues to the extent permitted by Missouri statutes.

**Financing**

The total cost of the Development Project is estimated to be \$15,706,411. The private portion of the total cost of the Development Project is estimated to be \$14,506,411. The public improvements portion of the total cost of the Development Project is estimated to be \$1,200,000 or 7.6% of the total project costs.

A CID sales tax in the amount of 1.0% would be levied within the Development Area. The Applicant will utilize non-captured CID revenues for the reimbursement of reimbursable project costs as permitted by state statute. Captured CID revenues would be collected in the TIF Special Allocation Fund for reimbursement to the City for its costs to reconstruct the interchange. Initial estimates of the amount of CID revenues (excluding CID revenues captured as EATs) available to pay for and/or reimburse Development Project costs is \$358,040 (plus reimbursable interest thereon, as discussed below
