Habitat for Humanity is privileged to work
in partnership with The Home Depot
Foundation through the Repair Corps
program to make needed housing repairs in
partnership with veterans and their families.

Repair Corps Program

The program is open to all who have served the armed forces and reside in Eastern Jackson County, provided they have received an honorable or general discharge. It is not restricted to any specific veteran groups.

The program is available June 2016-April 2017. We are looking for veterans who we can assist! This is open to all veterans in Eastern Jackson County!

Critical Home Repair is interior or exterior work performed to alleviate critical health, life and safety issues or code violations, including a change to or repair of materials or components; a reconfiguration of space; a modification for accessibility; installation or extension of plumbing, mechanical or electrical systems on an existing structure.

Home preservation projects are exterior work that includes painting, patching, minor repair, accessibility ramps and rails, and landscaping or replacement of materials for the purpose of maintaining a good or sound condition of the home.
